

# 5-YEAR USEFUL LIFE RECOMMENDATION

TASER devices are part of the Axon network

## WHY WE HAVE IT

AXON HAS ISSUED A 5-YEAR USEFUL LIFE RECOMMENDATION FOR ALL TASER WEAPONS. HERE'S WHY:

- 1 High voltage electronic components wear out over time and may not operate as expected
- 2 Weapons that are more than 5 years old are 2x more likely to fail in the field

## WHAT IT MEANS FOR YOU

This recommendation is **NOT** an expiration date, but guidance only

5-year useful life recommendations are common in the industry for other products like body armor

A \$10 million liability insurance policy is extended to all of our customers, but won't cover worn-out components older than 5 years\*

## HOW YOU CAN STAY CURRENT

We offer several payment plans to upgrade to new weapons and follow the 5-year guidelines

Contact your TASER sales representative or the customer service team if you have any questions

\*However, in the event that a TASER CEW fails due to a worn-out electronic component that is older than 5 years, our insurance would not cover this claim, and AXON would not be liable for any resulting injuries.
