

UNLOCK THE POWER OF VIDEO EVIDENCE

Play all video files
with bulk conversion

CONVERT UNPLAYABLE VIDEO FILES IN MINUTES

Streamlined | Simple | Flexible

Axon Convert is a local software solution that gives you the power to convert unplayable file formats with ease. It ingests and converts files in minutes with only a few clicks, making manual conversion a thing of the past. Since we know maintaining an evidence trail is important, Axon Convert not only produces a playable file, but also preserves the original and creates a report detailing the exact changes. Unlocking additional video evidence gives you the ability to see faster identifications, quicker subject apprehensions, and a dramatic increase in public safety.

FEATURES AND BENEFITS

STANDALONE SOLUTION: Axon Convert is a single solution that does not require additional plug-ins or third-party software.

EASY TO INGEST: Drag and drop files into the program in seconds.

AUTOMATIC: Convert files with the click of a button.

FLEXIBLE: The output folder can be relocated on the local PC or on a network share.

TRANSPARENT: The original file is preserved, and a detailed report of the results is provided.

STREAMLINED: Combine multiple files from the same camera into one single file for upload to Evidence.com

AXON FORENSIC SUITE

Axon Convert is part of the Axon Forensic Suite, the ultimate productivity suite. With the Axon Forensic Suite, you can bring the laboratory to any incident. The software can be installed in your response vehicle's computers or on laptops, allowing for maximum flexibility. Best of all, the tools in this workflow are available from one vendor, ensuring that you won't encounter compatibility issues.

AXON FIVE

Axon Five is a complete software solution for processing images and video. Simple, fast, and precise, Axon Five lets you clarify and analyze images and video using scientifically validated software that meets evidence code in the U.S. and Canada. It also produces a report listing processing steps, settings, and algorithms used in analysis and their source information.

AXON DETECT

Axon Detect is an image analysis program for tamper detection. It goes beyond image-matching to offer you a robust suite of authentication tools to certify evidence in-house. This reduces the need for external consultants, shortens turnaround time, and lets you use evidence captured by the public.
