

## YOUR CAMERA'S FOCUSED RIGHT WHEN YOU ARE

Axon Signal is a technology that enables certain Axon cameras to sense events up to 30 feet away and start recording. Whether you're driving your vehicle, using your TASER CEW, or drawing your sidearm, Signal operates effortlessly, allowing you to focus on what matters most.

## AXON SIGNAL PRODUCTS

**SIGNAL VEHICLE:** Enables events like opening the car door or activating the light bar to alert your cameras to start recording. Ideal for cars, SUVs, and motorcycles.

**SIGNAL PERFORMANCE POWER MAGAZINE (SPPM):** Capture critical footage when using your TASER X2 or X26P Smart Weapon. The SPPM reports to your camera when your weapon is armed and logs the moment that the trigger is pulled and arc is engaged.

**SIGNAL SIDEARM:** This easy-to-install smart sensor attaches to the large majority of sidearm holsters. Axon cameras within 30 feet can detect the removal of your sidearm from its holster and start recording via a wireless signal, so you can act with confidence in the field.

Axon Signal Vehicle Unit SKU: 70112
